

Khush Joshi

Phone number : 9891704881 ,

Email : khushjoshi007@gmail.com .

GitHub: <https://github.com/khushj007>

EXPERIENCE :

Instruments Research and Development Establishment Dehradun Intern

August 2021 - September 2021

During my internship, I gained expertise in computer vision and image processing. I successfully implemented a face recognition attendance system using live webcam captures to record user attendance. This project demonstrated my practical skills in the field.

PROJECTS :

KBlog

Kblog, built using React and integrated with Appwrite as a Backend-as-a-Service (BAAS), offers a blogging experience.

Link : <https://k-blog-silk.vercel.app/>

KApp

Kapp, a SaaS, utilizes OpenAI and Replicate AI APIs. Developed with Next.js, Tailwind, and TypeScript for efficient and dynamic web applications

Link : <https://k-app-git-main-khushj007.vercel.app>

KVideoChat

This application utilizes WebRTC and Socket.IO, developed with React for the frontend and Node.js for the backend

Link : <https://k-video-chat-9rgi.vercel.app/>

KChat

Created a chat application utilizing socket.io. Feel free to explore it by clicking the provided link. Check out the GitHub repository for more details.
